

p75^{NTR} Antibodies for Live Cell Imaging

The antibody has been designed to recognize p75^{NTR} from human, rat and mouse samples.

[Anti-Human p75^{NTR} \(extracellular\) \(#ANT-007\)](#)

[Anti-Human p75^{NTR} \(extracellular\)-ATTO-488 \(#ANT-007-AG\)](#)

[Anti-Human p75^{NTR} \(extracellular\)-ATTO-550 \(#ANT-007-AO\)](#)

Expression of p75^{NTR} in human A875 melanoma cells

Immunocytochemical staining of live intact human A875 melanoma cells. A. Cells were stained with [Anti-Human p75^{NTR} \(extracellular\)-ATTO-488](#) antibody (#ANT-007-AG), (1:50), (green). B. Live image of the cells. C. Merge of the two images.
