

CAN YOU SEE WHAT'S REALLY HAPPENING WITH YOUR CELLS?

With Etaluma's high resolution, versatile, and compact inverted microscope you can finally get the big picture without the big ticket price!

- Quality comparable to traditional, high-cost microscopes
- Compact: fits in incubators, hoods, and hypoxia chambers for live cell imaging
- Use flasks, microplates, microfluidic chips, slides, dishes, and more...
- 1.25-100x(oil) magnification

AUTOMATED LIVE CELL IMAGING IN YOUR INCUBATOR

- Auto XY, autofocus and Z-stacking
- 3D microscopy with "software confocal"
- High resolution, 3-color fluorescence, phase contrast, brightfield
- Records images, time-lapse & live video

LUMASCOPE 720

- SURPRISINGLY AFFORDABLE!
- AMAZINGLY SIMPLE!
- REMARKABLY VERSATILE!
