

A List Biological Laboratories possui toxinas de diversas fontes, veja qual a mais adequada a seu ensaio:

## CHOLERA TOXINS

- Anti-Cholera Toxin B Subunit (Goat)
- Cholera Toxin (AZIDE-FREE) from *Vibrio cholerae*
- Cholera Toxin B Subunit (Choleragenoid) from *Vibrio cholerae* in Low Salt
- Cholera Toxin B Subunit (Choleragenoid) from *Vibrio cholerae*
- Cholera Toxin B Subunit (CTB) from *Vibrio cholerae* FITC, Conjugate
- Cholera Toxin B Subunit (CTB) from *Vibrio cholerae* HRP, Conjugate
- Cholera Toxin B Subunit (CTB) from *Vibrio cholerae* TRITC, Conjugate
- Cholera Toxin B Subunit Biotin Conjugate
- Cholera Toxin from *Vibrio cholerae*

## PERTUSSIS TOXINS & VIRULENCE FACTORS

- Adenylate Cyclase Antigen, Native from *B. pertussis*
- Adenylate Cyclase Toxin, Recombinant from *B. pertussis*
- Adenylate Cyclase Toxoid, Recombinant from *B. pertussis*, Frozen Liquid
- Adenylate Cyclase, Recombinant from *B. pertussis*, Reduced Endotoxin, Frozen Liquid
- Filamentous Hemagglutinin (FHA) from *B. pertussis*
- Fimbriae 2/3 from *B. pertussis*
- HPT™ LPS, highly purified from *Bordetella pertussis* 165
- Pertactin from *B. pertussis* (69 kDa Protein)
- Pertussis Toxin from *B. pertussis* (in Glycerol)
- Pertussis Toxin from *B. pertussis*, Lyophilized (Salt-Free)
- Pertussis Toxin from *B. pertussis*, Lyophilized in Buffer
- Pertussis Toxin Mutant
- Pertussis Toxin Subunit from *B. pertussis*, A Protomer

## TETANUS TOXINS & RELATED PRODUCTS

- GST Synaptobrevin-2 Protein Substrate for *C. botulinum* Types B, D, and F
- Tetanolysin from *Clostridium tetani*
- Tetanus Toxin C-Fragment from *Clostridium tetani*
- Tetanus Toxin C-Fragment from *Clostridium tetani*, FITC Conjugate
- Tetanus Toxin from *Clostridium tetani*
- Tetanus Toxin Light Chain, Recombinant
- Tetanus Toxoid from *Clostridium tetani*

## ANTHRAX TOXINS

- Anthrax Edema Factor
- Anthrax Lethal Factor
- Anthrax Protective Antigen & Derivatives
- Antibodies for Anthrax Toxins
- Peptide Substrates for Anthrax Lethal Factor
