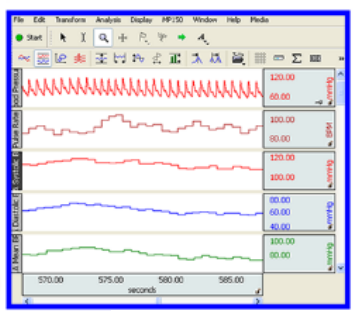
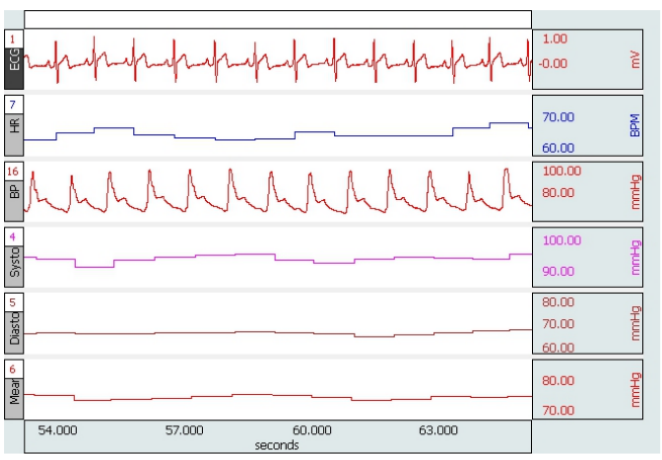
Soluções Completas para Pesquisa em Hemodinâmica Cardiovascular

BIOPAC Systems, Inc.

Advanced data reduction features perform automatic statistical measurements

Powerful, sophisticated acquisition and analysis algorithms.





TARGETED HUMAN & ANIMAL RECORDING & ANALYSIS

Utilize the powerful on-line analysis capabilities of Acq*Knowledge*® software for chronic, acute and in vitro preparations in both long- and short-term experiments for human and animal subjects. Pre-program the software to synchronize recording sessions with a user-specified dosing routine. Sophisticated algorithms provide on- and off-line, beat-by-beat analysis of the primary cardiovascular signals such as blood pressure, cardiac output, ECG, and left ventricular pressure. Advanced data reduction features perform automatic statistical measurements and multiple display modes allow users to view the data in a familiar format. Acq*Knowledge* displays the data in a variety of formats for quick and easy viewing. On-line calculation channels allow you to configure channels and filter data.
